

Staff Position Description

Title: Eastern Region Operations Specialist

Starting Salary Range: The starting salary range for this position will be in the \$57,258 - \$66,340 range, depending on experience, education, and skills relevant to the position. Please note that the indicated starting salary range describes the range for an incumbent in this position. Most new staff generally start at the beginning of the range percentile to ensure internal salary equity.

Location: Somewhat flexible, but in close proximity to regional service area (see below). Regular Travel Necessary.

Status: Full-Time, Exempt

Benefit Eligible: Health, Vision, Dental, Long-Term Disability, Retirement, Paid Time Off

Reports to: Impact & Operations Director

Organizational Summary:

Conservation Legacy is a nationwide non-profit. The Corps programs within the organization engage participants in diverse conservation and community projects that serve public and private lands. These projects provide opportunities for personal and professional development and strive toward a high priority of needs for public land managers and community partners. Through the mission of engaging future leaders who protect, restore and enhance our nation's lands through community-based service; Conservation Legacy works toward a world with healthy lands, air and water; thriving people and resilient communities.

Position Summary:

The **Regional Operations Specialist** is responsible for supporting local programs across the region in developing staff technical skills, mentorship strategies, and consulting in strategic capacity needs. The primary focus of this position is to ensure programs are equipped to execute high quality and safe project work. This position will actively consult with director-level staff on resources, program structure and growth needs for existing and new programming. This position is required to stay up-to-date on industry standards in conservation, trail construction, forestry, restoration, and other land stewardship work and actively works with regional counterpart and national operations team to ensure these standards are met.

The Regional Operations Specialist is a key member of Conservation Legacy's operations team as a trainer of program staff in facilitation and technical skillsets. Some focus areas may include: providing training and technical support for crew-based programs' staff and participants, developing curriculum for new skills training, working with program staff and/or partners to develop technical specifications and standards for projects, leading skills trainings for community partners, and supporting national and regional programmatic development strategies. This position will support intern program staff as needed by helping develop training, work, and partnership plans related to technical skills focused internships.

The **Regional Operations Specialist** may spend approximately 50% or more of their time in the field and traveling to Conservation Legacy's unique regional program locations. This may vary depending on season and programmatic need. This position participates as needed in regional leadership meetings, as well as national operations and management teams. Additionally, this position is expected to maintain an active presence in internal and agency working groups focused on technical skills utilized by

programs. This position is expected to use wide knowledge of conservation practices to help build new collaboration structures amongst programs, other cooperators, federal and state agencies.

Regional Service areas

- The Eastern Region of Conservation Legacy includes Appalachian Conservation Corps, Conservation Corps North Carolina, Southeast Conservation Corps, and Stewards Individual Placement Program – East.

Outcomes & Functions of Position:

Training and Programmatic Accountability

- Develop internal training and operations standards where appropriate to address programmatic needs in Conservation Legacy
- Identify inefficiencies and challenges in field operations and create trainings to address them for both staff and participants
- Monitor field operations and industry trends to keep Conservation Legacy programs relevant and outstanding
- Present trainings to diverse groups with different learning styles and be adaptable to the different needs of members, leaders, staff, and external participants.
- Maintain individual professional skill set and develop new skills appropriate to programmatic needs.
- Attend conferences, workshops or other industry events to bring knowledge back to Conservation Legacy.
- Create and maintain training resources (digital, virtual and physical) to be used by staff, participants and partners.
- Regularly engage in the review of, and drafting of operational risk management protocols and policies as needed to ensure programming meets national safety standards.

Program Capacity and Organizational Development

- Supervise, mentor, and support regional Operations Assistant(s) when applicable
- Work with Regional and National Operations staff to identify programmatic operational improvements across Conservation Legacy programs
- Work with Corps Directors and Regional Leadership to identify and create strategic program capacity plans and pursue development goals.
- Engage in organizational planning for new projects or enhancing existing programs -identify shortfalls or barriers within operational budget, staff capacity, program resources, partnerships, etc.

Partnership and Cooperator Liaison

- Forge and maintain partnerships with relevant agency personnel and community partners specific to the objective of advancing Conservation Legacy's training and technical skill capabilities
- Work with Corps Directors and their staff to assist project partners in developing project specifications for highly technical projects
- Provide mentorship and assistance to local program staff in development of technical project specifications needed for proposals and best practices for gathering reportable accomplishments.

Field Skills Training

- Plan and facilitate training opportunities for Conservation Legacy staff to improve field skills and maintain certifications
- Work with Corps Directors to maintain a cadre of experienced staff sawyers
- Plan and coordinate schedules to attend chainsaw and crosscut trainings in order to lead, teach and evaluate new sawyers.
- Assist program staff in planning technical aspects of field trainings

Organizational Advocacy

- Successfully engages, leads and supports an inclusive work environment for those of underrepresented populations within the organization and the communities we serve.
- Leads and/or participates in organizational-wide teams, projects and initiatives that support the work of the Strategic Plans goals.
- Reports any potential complaints within the organization as identified in the Personnel Policy Manual.
- Assists or leads other responsibilities, as assigned.
